Lakeland Electric's authorized Line Clearance Contractor will deliver one load of wood chips at the above address free of charge. The average delivery consists of 10-12 cubic yards of coarse wood chips, twigs, and leaves. The wood chips are not landscape quality and are recommended for use as ground cover, driveways, parking areas, and mulch piles. Delivery will be made when a line clearance crew is working in the area.

The undersigned grants access to the property and releases Lakeland Electric and its contractors from any and all liability arising out of the delivery, use of the product, or clean up.
