## Tax Exempt Information

Notice to Lakeland Electric Customers regarding Sales and Use Tax Exemption and Obtaining an Assignment of Rights for Refunds.

Generally, the sale of electric power or energy by an electric utility is taxable under Florida Law, requiring Lakeland Electric to collect and remit sales and use tax on any sale of electric power or energy from its Customers to the Florida Department of Revenue (FDOR). However, specified Customers may apply for and obtain a Certificate of Exemption directly from FDOR.

Customers entitled to a tax exemption may apply for a refund from the FDOR for those taxes that may have been collected in error. An application for a refund of sales and use tax from the FDOR for taxes paid on or after July 1, 1999, must be filed within three (3) years after the tax was paid. Customers may contact the FDOR at FloridaRevenue.com for additional information regarding applicable exemptions.

Lakeland Electric will issue an Assignment of Rights in lieu of a refund or credit applied to a Customer's electric bill for Sales Tax paid due to a Customer not providing a Sales Tax Exemption Certificate. Assignment of Rights Forms (State & County) are needed from FloridaRevenue.com. Once the customer has completed the forms, they should be mailed to Lakeland Electric at the address noted below or emailed to Lakeland Electric at customerservicebilling@lakelandelectric.com, along with a current Sales Tax Exemption Certificate for research and processing. Once the research has been completed and the refund amount is confirmed, Lakeland Electric will sign and notarize the Assignment of Rights. The completed Assignment of Rights form and research will then be mailed or emailed (PDF) back to the Customer to submit to FDOR for the refund claim. If you have any questions, you may contact Lakeland Electric by phone at 863-834-1703, by mail at Lakeland Electric, 501 E. Lemon St, Lakeland, FL 33801 ATTN: LE Billing/Collections or email customerservicebilling@lakelandelectric.com.

## Commercial Energy Audits

Your cost of electricity is an important factor that directly impacts your company's bottom line. Receiving a free energy audit could save your company money that could be utilized elsewhere.

Commercial Energy Audits are performed by highly trained and experienced energy experts who will thoroughly examine your business by checking:

- Heating and air-conditioning systems
- Refrigeration equipment
- Lighting
- Water Heating
- Motors
- Process Equipment
- Your building's thermal characteristics to detect areas of heat loss and gain

After gathering this information, Lakeland Electric representatives will discuss what steps you can take to operate your equipment and business more efficiently.

For more information, call Customer Service at (863) 834-9535. between 7:30 a.m. - 6:00 p.m., Monday-Friday.
