

**NOTICE OF GROUNDWATER PROTECTION STANDARD EXCEEDANCE  
40 CFR §257.95(g)**

**C.D. McIntosh Power Plant**

**CCR Unit: South BSA**

Pursuant to 40 CFR §257.95(g), the following Appendix IV constituent was detected at a statistically significant level above the applicable groundwater protection standard during assessment monitoring at C.D. McIntosh Power Plant – South BSA:

- Lithium

This constituent was identified previously as an SSL in the notice dated October 15, 2018. This (January 31, 2023) notification is for an additional groundwater monitoring well (CCR-4) with the same previously identified constituent. Lakeland Electric will continue implementing the selected remedy for the SSL at this new location. Lakeland Electric will also continue groundwater monitoring and reporting activities as required by 40 CFR §257.95.
